

Fork Mounted Extendable Truss Boom

The Fork-Mounted Extendable Truss attachment is ideal for metal building erection, setting wooden trusses, putting up post frame building and many more "low rise" applications. This attachment is designed to mount on most existing forks, and is extendable, allowing for convenient lifting and placing of objects around the worksite.

Features

- Designed to accommodate a maximum fork size of 2.36 x 7 x 72 in
- Fits JLG and SkyTrak Models
- Fork Mounted Extendable Truss Load Chart advising length and capacity restrictions depicted below

Current Production - Truss Boom
