

Grapple Bucket

The grapple bucket uses hydraulic arms to secure bulky loads and materials. This feature is useful when cleaning up natural disaster sites and day-to-day job site scraps. Grapple buckets are not designed for digging.

Features

- Independent grapple arms require auxiliary hydraulics (except 619A, 723A, G5-19A and G6-23A)

Current Production - Grapple Bucket

Available Through JLG Aftermarket Or With New Machine Orders

BUCKET SIZE		96 in.
