<i>Description</i>	<i>page</i>
INTRODUCTION	3
DESCRIPTION OF SPARE PARTS ILLUSTRATIONS	4
EXPLANATION OF SYMBOLS USED	5
ORDERING PARTS	5
INDEX OF MACHINE GROUPS AND ASSEMBLIES	foll.
SPARE PARTS ILLUSTRATIONS	foll.
NUMERICAL INDEX OF ILLUSTRATIONS	foll.
SUMMARY INDEX OF SPARE PARTS IN NUMERICAL SEQUENCE	foll.
SUMMARY INDEX OF SPARE PARTS IN ALPHABETICAL SEQUENCE	foll.

- This catalogue has been drawn up to help you look for, find and order spare parts through the specific part name or part number.
- The catalogue is arranged as follows: introductory pages with instructions on how to use the catalogue and order spare parts, main body of the catalogue including the various search indexes as well as the spare parts illustrations as specified in the “Index of Machine Groups and Assemblies” at the beginning of this section.
- The machine is divided into several functional groups or assemblies, and each functional group is in turn composed of one or more spare parts illustrations, depending on its complexity.
- The index of functional groups or assemblies is therefore ***the main search key*** you should use to find the illustration you want and the specific part you require.
- ***A secondary search key*** in both alphabetical and numerical sequence is the summary index of the spare parts which can be used to perform the process in reverse -i.e. given the part number you can identify the name of the part, the illustration in which it is shown, its quantity and its position number in the illustration.
- The index of illustrations is intended as a quick overview of all of the illustrations included in the catalogue, in the order in which they appear.
- For more information, contact the TEREXLIFT Customer Service.

- 1 Title of the illustration
- 2 Table
- 3 Illustration (exploded view, technical drawing or photo)
- 4 Group #
- 5 Code number of the illustration
- 6 Numbers indicating the numerical sequence and total number of pages of the parts list
- 7 Revision number of the illustration
- 8 **ITEM** (position) column: indicates the position numbers of the parts illustrated
- 9 **REF** column: Code number of the illustration
- 10 **SMR CODE** column: SMR code
- 11 **NSN CODE** column: NSN code
- 12 **VENDOR P/N.** column: Vendor part number

[illegible]

**Spare part cited in other illustrations**

To identify the part you must reference to the illustration whose code number is specified in the description column **15**.

**Spare part containing other internal parts shown in other illustrations**

The code corresponds to the part number specified in the part number column **14**.

The parts indicated in the drawing cannot be supplied individually but only as kit.

Order by length (m = meter)

To order spare parts you must provide TEREXLIFT Customer Service the following information:

- A Model, type and serial number** of the machine plus spare parts catalogue code and revision number (all of this information is shown on the cover of the catalogue).
- B Part number 9**, description **11** and quantity **10** of the spare parts you wish to order.
If any of the parts do not have a part number (symbol  in the **NOTE** column) you must specify the complete code number of the illustration (**2** + **3**) in which the spare parts appear, together with their position number (**8**).
- C** Company name, full address and telephone number of the party placing the order. You must also specify the address to which the parts have to be sent and the transport mode/carrier to be used (if this last information is not given, TEREXLIFT reserves the right to choose the most convenient transport mode/carrier).

PART 1

DECAL

[illegible]

 **WARNING**

Your safety and the safety of those around you depends on your using care and judgement in the operation of this equipment. Know the positions and functions of all controls before attempting to operate. All equipment has limitations. Understand the speed, braking, steering and load characteristics of the machine before starting to operate. Read the Operator's Manual and ask questions of your supervisor until you know the limitation.

Do not operate TEREXLIFT TELEHANDLER while people and property are within a 50 foot (15.24 M) minimum radius. Falling objects from the forks or attachment can cause serious injury or property damage. The 50 foot (15.24 M) minimum radius should be used as a guideline and should be enlarged if warranted by working conditions.

Always remain completely within canopy enclosure while operating machine. Falling debris can cause serious personal injury.

Never extend a load beyond the load chart band. Machine turn over, component damage, injury or death could occur.

Absolutely no riders on machine or attachment.

Never lower a maximum load before retracting it. Machine turn over, component damage, injury or death could occur.

Always wear the seat belt when operating the machine.

Always inspect the machine daily. Check for missing guards and screens, loose bolts or anything out of the ordinary. Repair and/or replace immediately. Failure to do so can cause injury or death.

Do not travel on terrain or in dangerous areas that may cause the machine to tip over.

Carry a load so that you have maximum machine stability.

Always level the machine as indicated on the gauge before raising the boom. Raising the boom with an unlevel machine may cause the machine to overturn causing injury or death.

TEREXLIFT
 WILMINGTON, N.C. 28412

3232Z936-B

 **WARNING**

Operation & Maintenance Manual

- Do not remove manual from machine.
- Replace manual if damaged.

MK181132

 **DANGER**

DEATH OR INJURY CAN RESULT FROM CONTACTING ELECTRIC POWER LINES.

ALWAYS CONTACT THE ELECTRIC POWER LINE OWNER. THE ELECTRIC POWER SHALL BE DISCONNECTED OR THE POWER LINES MOVED OR INSULATED BEFORE MACHINE OPERATIONS BEGIN.

POWER LINE VOLTAGE	REQUIRED CLEARANCE	
0 TO 50KV	10FT	(3.00M)
50 TO 200KV	15FT	(4.60M)
200 TO 350KV	20FT	(6.10M)
350 TO 500KV	25FT	(7.62M)
500 TO 750KV	35FT	(10.67M)
750 TO 1000KV	45FT	(13.72M)

 **WARNING**

PARKING BRAKE

AN UNATTENDED MACHINE CAN MOVE OR ROLL.

SET PARKING BRAKE, LOWER CARRIAGE OR ATTACHMENT TO GROUND BEFORE LEAVING MACHINE.

FAILURE TO HEED COULD RESULT IN DEATH OR SERIOUS INJURY.

 **WARNING**

BEFORE OPERATING

IMPROPER OPERATION OF THIS EQUIPMENT CAN CAUSE SEVERE INJURY OR DEATH.

READ AND UNDERSTAND THE OPERATOR'S MANUAL AND SAFETY INSTRUCTIONS BEFORE OPERATING OR SERVICING.
